

Model # PT-53 Temp & Time Thermocouple

Thermometer Instruction Manual

1. TIMER button – 99 minute count up timer
2. °F /°C button - switch between Fahrenheit/ Celsius
3. Rotate button – rotates the LCD 180°
4. .75 mm flat tip
5. 2 AAA battery door

This is a state of the art thermometer with new flat tip design. It is engineered and designed to meet the highest quality standards. Please read this instruction manual carefully before use and keep it handy for future reference.

Features:

Ultra fast .75 mm flat tip thermocouple sensor measures temperature in under 2 seconds

Patented 99 minute count up timer
Large display rotates 180 ° and has back light
Temperature range - 40°F to 662°F (- 40°C to 350°C)
Temperature accuracy +/- .7°F (+/- .39°C)
Fahrenheit/ Celsius selection
2 AAA batteries included

IP56 water proof – the unit can be sprayed with water

Battery Information:

This thermometer operates on 2 AAA batteries(included). Change the batteries when the display becomes dim or when LCD shows "BLO", indicating Batteries are Low

To install the batteries.

- 1.Open the battery compartment in the back by pressing the snap lock toward the battery door and pulling up.
- 2.Insert the batteries with the (-) flat side on the spring terminal
- 3.Close the battery door by locating the two tabs opposite the snap lock and then gently pressing the snap lock while pushing the battery door down.

General Operation:

1: The unit will turn on automatically when the probe is unfolded. The display backlight will automatically turn on 10 seconds.

Close the probe to turn the unit off.

2: Timer function; Press "Timer" button and hold 2 seconds, the timer icon shows on LCD. Close the probe the unit will automatically time up. Press "Timer" button for 2 seconds. the unit will turn off

3: To switch between Fahrenheit and Celsius temperature scales, Press "°F/°C" button and hold 2 seconds

4: To rotate display: press "Rotate" button and hold 2 seconds, the display will rotate 180 °

5: To measure the internal temperature of meat unfold the metal probe and insert it into the thickest part. Do not come in contact with bone, fat or gristle, as these areas will not provide accurate temperature readings,

6) There is a temperature chart on the back of the unit to use as a guide.

DO NOT LEAVE THE THERMOMETER IN THE OVEN OR GRILL WHILE COOKING.

DO NOT USE IN THE MICROWAVE.

DO NOT TOUCH THE PROBE TIP AFTER IT HAS BEEN INSERTED IN HOT MEAT

CLEANING AND CARE INSTRUCTIONS:

CLEANING:

Do not wash in a dishwasher.

Thoroughly clean thermometer probe after each use to avoid cross contamination.

Use a damp sponge or cloth to clean the unit and probe. You may also dip the cloth or sponge in warm soapy water to help remove surface deposits and prevent them from becoming hard or sticky on the unit.

Cautions:

Do not use solvent based cleaners or methylated spirits.

Do not submerge the thermometer in liquid.

Not Intended for Use by Persons ages 12 and Under
